WHAT'S GOING ON AT WHAM?

Greetings fellow modelers

I hope that everyone has had a chance to get in some flying while the weather is so nice. Let me introduce myself my name is Niven Tuttle I have been a member at WHAM for quite a few years. I have taken on the task of producing the newsletter again.

Do not be surprised if you find a spelling error or the grammar could use some polishing. I will do my best to provide you with an easy to understand newsletter that should be easy to digest. I know it sounds quite easy but without your input and feedback there would be no content for the newsletter.

It's your newsletter lets work together to voice our opinions and concerns and have some fun along the way.

I know that all of us have unique flying times and we don't always see each other so lets use this newsletter and our website as a launching pad to better understand what's going on in the club and our neighborhood.

If we have a current email address for you your newsletter will be sent to this address for January 2007 after this you will be able to go on the website and view and print the newsletter if not a copy will be mailed to you and, a copy will be posted at Trains Planes and Automobiles. If you receive a copy in the mail and you have access to the Internet let me know. The fewer newsletters we mail out using the post office the more money the club saves ok that's enough of the intro lets get started.

CLUB MINUTES FOR December

Our December meeting was held at Fire Mountain restaurant. This served as a Christmas fellowship with each other and our families. If you did not get the chance to attend you missed out on some great fellowship and food.

The meeting got underway at 6:15pm and was kept short so we could have time to spend with each other. There were 30 people in attendance members and their families. Discussion about having a scheduled workday at the field was introduced by Greg Hanes. It was voted in by the members present that the 4th Saturday of each month from 9:00am until 12:00pm would be used for club improvements. The new club officers were also voted in for

the upcoming year 2007. The officers are as follows.
President: Ernie Masche
Vice President: Alan Moe
Treasurer: Eddie Kizer
Secretary: Niven Tuttle
Safety Officer: Ken Hodges
Meeting ended around 8:00pm.

Reminder: The end of the year is here and you should have at least renewed your AMA so if you have forgotten better tell Santa that's what you want for Christmas. Also, don't forget our upcoming race being held on Jan 1 at the field. The pylons have been installed so you can practice or at least get the feel for where they are. The planes being used this year are the Kyosho Warbirds. The engine rules will remain the same as for the 4 Star 40 races. Even if you plan on not racing come on out we can always use some help.
NO FLY ZONE: As you are flying keep in tune on the No Fly Zone It could be the difference on where you fly tomorrow.
Special Thanks to all who came out to the field Saturday and helped deliver flowers. And for all the improvements being done.
