## **GREATER HICKORY AREA RC SWAP MEET!**

**G**et ready for the upcoming swap meet to be held at the Hickory Metro Center. Blake and Cecil have been working with two members from the CVRC club to iron out the details. The swap meet is slated to be held October 20 2007. Keep in mind this could grow into a big event the Metro Center is at a great place easy to find. To all of you who have gone to swap meets some times you ask yourself where is this place. With the Metro Center being right off I-40 it will be a great location.

Randy Minton from the CVRC club has been working on a web page that will be for lack of better words the front door to the swap meet for info. I have been working to build a database on our website server. What this will do for us is allow anyone to enter through the

front door web page or from our web site and register for a table.

Why is this so important well this way no one has to sit by the phone and take every call signing up people for table reservations, and will make sure we only sell tables we have.

However, we will need a couple of people to be contact persons for people who would like to reserve a table but, have no access to a Computer. All that would be required is to take there information and enter it the form provided on the web site.

It would help that if you choose to help, you should be able to enter the information ASAP this way everyone gets a chance to reserve a table. If my notes are correct we will have 41 wall tables @ \$15.00 each and 94 center tables @ \$12.00 each. All information about the swap meet will be made final at the **next meeting 7:00 April. 12 at the field.**

## **CLUB MINUTES FOR March**

Our March meeting was held at the building across from the Hickory Airport. The meeting got underway at 7:05 pm and 12 members were present. Greg brought some great show and tell if you were not there you missed it.

## **Old Business:**

No new news report on the power project installation at the field.

Stump removal has been paid for in full. Steve Parsons sent pictures to Kyosho of our Jan, race.

## **New Business:**

The swap meet committee will have final pricing and secure date for March meeting. It was voted on to supply AMA with a picture ad for the swap meet instead of just text. Our AMA charter payment was paid.

Meeting was over at 8:25pm

## **SOMETHING TO THINK ABOUT!!!!**

This has a valid point stated from a member. We are trying to get power at the field for what exactly. Do we need it so bad we are willing to pay around \$16.00 per month every month \$192.00 per year and who needs it during the winter? What's next a shed with AC! This is something that should be talked about at the next meeting. Remember I am just the massager so don't ask me what I meant by this statement.
